Miscellaneous Work Papers

A WORLD CATALOGUE OF THESES AND DISSERTATIONS
CONCERNING THE EDUCATION OF THE PEOPLES OF THE
PACIFIC ISLANDS (INCLUDING THE NEW ZEALAND MAORI)

William G. Coppell

(1977:1)
The publication by the Pacific Islands Studies Program of Dr. William Coppell's World Catalogue of Theses and Dissertations is a happy occasion as it marks the second first for both. Two years ago this program published his Bibliographies of the Kermadec Islands, Niue, Swains Island and the Tokelau Islands; in that his section on the Kermadec Islands was the first of its kind, and he commendably brought the other area entries of Niue, Swains and the Tokelau Islands up to date with numerous new entries.

The present bibliography should prove very useful to Pacific Islands-oriented scholars and academicians as well as to students in the field of education who are working towards their degrees, particularly in Pacific higher education institutions. It is the first worldwide catalog of the Pacific, one whose entries come from North American, European, Asian, Pacific Islands and Commonwealth institutions of higher learning. It includes data on the date, degree conferred and pagination of each work. The author has attempted to verify the availability to scholars of each work cited.

A grant from the U.S. Office of Education to the Pacific Islands Studies Center has helped to make this publication possible. To both Dr. Coppell and the Center, mahalo.

ACKNOWLEDGMENTS

It is necessary to express the author's sincere appreciation of the encouragement he received from the Director, Dr. Carl J. Daeufer, and staff of the Pacific Studies Program, University of Hawaii, which resulted in the publication of this Catalogue.

Generous credit must also be given to Phyllis Turnbull for her editorial work in bringing the manuscript to a publishable form. Finally, the author must express his appreciation to the Librarian and staff of Macquarie University who gave invaluable assistance in tracing and verifying the entries in the Catalogue.

INTRODUCTION

PURPOSE OF CATALOGUE:

This catalogue of theses and dissertations concerning the education of the peoples of the Pacific Islands is designed to provide a systematic listing of theses and dissertations. The purpose is to indicate the scope of the research undertaken and to allow research students the opportunity to become aware of prior work in their fields of interest.

AREAS OF REFERENCE OF CATALOGUE:

In general the catalogue is confined to work at the master's and doctoral levels, although some bachelor's theses have been included where it is considered that the particular subject has special significance. Diploma theses presented at New Zealand universities are included as the studies are carried out as postgraduate work.

A number of catalogues of theses were consulted as reference sources, but details of many of the entries were obtained by correspondence with the Deans and Heads of Schools of the many university departments, Schools and Faculties of Education which have been concerned with research in the educational situation of the peoples of the Pacific Islands. Theses and dissertations which deal with the New Zealand Maori have been
included as it is considered that it would be illogical to divorce the New Zealand Polynesian from other Pacific groups.

Items dealing with the various ethnic groups which comprise the population of Hawaii have also been included as they reflect the various relationships between the various groups.

BIBLIOGRAPHICAL DETAILS:

An effort has been made to ascertain as completely as possible full bibliographical details of each entry, but unfortunately some deficiencies exist.

The compiler would be grateful to receive any information which will either add additional entries or amend the entries in the catalogue.

CUT-OFF POINT:

The end of 1976 is taken as the cut-off point for the catalogue. (Exceptions: Hindson, p. 16; Palmer, ADDENDA).

SUBJECT INDEX:

The entries in the catalogue have been cross-referenced in the subject index by countries and regions. In several instances references to individual theses or dissertations may appear under several country or regional headings.

Since 1973 the Pacific Islands Studies Program has engaged in duplicating inexpensively various work papers whose contents appear to justify a wider dissemination than that of classroom contact or intra-University circulation. Most of these works consist of student papers submitted in academic courses, and which to some limited extent represent a contribution to existing knowledge of the Pacific Islands. Several works have centered on the preparation of bibliographies; heretofore not published but judged to be of important value to students and scholars engaged in Pacific Islands Studies.

The title, author and date of each publication in the series is listed below. A publication may be presently out-of-print; however in the event there are sufficient requests, the PISP may consider a reprint. It should be noted that copies have and/or are made available only to institutions and scholars interested and engaged in Pacific Islands Studies.

Carl J. Daeufer, Pacific Islands Studies
