MEMORANDUM

TO: State Clearinghouse
Office of State Planning
Office of the Governor

FROM: University of Hawaii

SUBJECT: State Clearinghouse Review

Project: Hoolehua Water Conservation Measure

Applicant: Molokai-Lanai Soil and Water Conservation District

State Clearinghouse Identifier Number: HI870903-106M

The purpose of this questionnaire is to assure that all concerns relating to the proposed project may be adequately addressed. Your assistance in completing this form will help to assure a complete clearinghouse review of the subject proposal. If additional space is required, please attach additional sheets to this form.

1. Does the subject proposal relate to plans or programs of your agency?

   Only indirectly, in that we maintain reference files on water conservation activities.

   If so,

   (a) How will the proposal affect the plans or programs of your agency?

   Information about the project will be added to our records of water conservation activities on Molokai.

   (b) Has the proposal been coordinated with your agency?

   No

   (c) Would your agency be interested in participating in further discussions with the applicant?

   No. We contacted the applicant to derive the additional information we required.
2. Is your agency aware of other agencies whose plans or programs may be affected by the proposal?
   
   No

   If so, which ones?

3. Does your agency have any objections to the subject proposal? If so, please state your reasons.
   
   No objections.

4. State additional concerns or comments of your agency.

   Generally, we find this proposal to offer potentially significant beneficial contributions to residents of the Hawaiian Homes Lands on the Hoolehua Plain. We note that the project augments earlier plantings undertaken for a similar purpose. Also records indicate that similar undertakings at the Maui Agricultural Park resulted in a roughly 30% increase in crop productivity.

   (Signature of Agency Head)  (Date)

NOTE: If additional information is required, please contact the State Clearinghouse as soon as possible.
