Office of the Director

Environmental Quality Commission
Office of the Governor
State of Hawaii
550 Halekauwila Street, Room 301
Honolulu, Hawaii 96813

Mr. Donald Bremner:

Exemption List
Department of Water Supply
County of Hawaii

The Environmental Center has reviewed the above cited exemption list with the assistance of Margaret Kimmerer, Caryn Woodhouse and Jacquelin Miller, Environmental Center.

The following comments are presented for your consideration regarding the proposed exemption list:

Class 4
1. "Incidental clearing of land or preliminary site work..." is too general a statement. There should be a limit to the size of the site that will be exempt. The use of herbicides in clearing should not have a blanket exemption in this case.

3. There should be some set limit to the length and size of retaining walls and rubble masonry that are to be exempt.

Class 10
1. Setback variances should not be exempt actions and should be subject to assessment.

We appreciate your consideration of our comments.

Yours truly,

Jacquelin N. Miller
Acting Director
