Roy Takekawa, Office of Environmental Health and Safety

HB 152 HD1 would add a new section to Chapter 149A, Hawaii Revised Statutes, providing for attachment of warning signs to roadside pesticide spraying vehicles.

Our statement on this bill does not constitute an institutional position of the University of Hawaii.

Some provision of public notification at the site of roadside pesticide spraying was a recommendation of the Roadside Spraying Task Force in its report to last year's legislature. The present draft of this measure more closely conforms to the Task Force recommendations, and addresses the concerns raised in our earlier testimony. Consequently, our reviewers support the intent of this measure as presently drafted.
