Cliff Smith, Cooperative Parks Service Unit
Ray Tabata, Sea Grant

HB 1134 HD 1 would remove the exclusion of State Forest Reserve lands from the definition of coastal zone management area.

Our statement on this bill does not constitute an institutional position of the University of Hawaii.

Our reviewers generally support the intent of this measure. We note that the proposed change probably would not cause any major impacts in existing management programs, yet would provide improved opportunity for review, particularly of federal actions through the consistency review process.

Amendments to the bill provided in the House draft would serve to improve the clarity of the intent, assuming that the typographic error on page 2, line 2 is corrected by removing one of the duplicate inclusions of the word, "all".
