HR 115  HCR 95
REQUESTING A REPORT ON WATERSHED AND HYDROGRAPHIC STUDIES CONDUCTED

Statement for
House Committee on
Water and Land Use
Public Hearing - April 4, 1989

By
Jacquelin Miller, Environmental Center
Clifford Smith, Botany
Charles Lamoureux, Botany

HR 115/HCR95 requests the Department of Land and Natural Resources (DLNR) to review all watershed and hydrographic studies that have been conducted to date and to make recommendations regarding their shortfalls.

Our statement on this resolution does not represent an institutional position of the University of Hawaii.

We concur with the intent of this resolution. However, we suggest that DLNR be encouraged to consult with other agencies and organizations with expertise and interest in watershed management in conducting their review and developing recommendations. The Environmental Center of the University of Hawaii would be pleased to work with or assist the DLNR in this regard.
