Announcements

We are pleased to announce that the first round of the [IRIS Replication Award](#) is now open. This is an award for an outstanding replication study in the field of second language research using materials held in IRIS. Submissions for the first round of consideration will close on November 30, 2018. We encourage researchers to carry out rigorous replication research in the field and to apply for this award.

Copy Editor Acknowledgements for Volume 22, Issue 3

The editorial staff would like to thank the copy editors that edited the manuscripts appearing in this issue. We appreciate their dedication and service while helping to prepare these manuscripts for publication.

Margherita Berti (The University of Arizona)

Penny Causarano (University of Mary Washington)

Bryan R. Drost (Kent State University)

Edie Furniss (University of Pittsburgh)

Jacob Hakim (University of Hawai'i at Mānoa)

Ashley Landes (American College of Education)

Erik Norlin (The Ohio State University)

John Stanko (The University of Kansas)

[6th International Conference on Language Documentation & Conservation \(ICLDC\): Connecting Communities, Languages, & Technology](#)

February 28–March 3, 2019, Honolulu, HI

The 6th International Conference on Language Documentation & Conservation (ICLDC), *Connecting Communities, Languages, & Technology*, will be held at the Hawai'i Imin International Conference Center

on the campus of the University of Hawai‘i at Mānoa. The 6th ICLDC is hosted by the Department of Linguistics and the National Foreign Language Resource Center at the University of Hawai‘i at Mānoa and is generously supported with funding from the National Science Foundation.

The conference program will feature three keynote talks, talk story sessions, workshops, papers, and posters. New for 2019 is the technology showcase, a networking opportunity that will bring together technology developers and language community members. An optional Hilo field study (on the island of Hawai‘i) to visit Hawaiian language revitalization programs in action will take place immediately after the conference (March 4–5, 2019).

Over the past two decades, endangered language documentation and conservation has (re)emerged as a distinct subfield of linguistics with its own methodology and theoretical underpinnings. This reemergence has occurred in parallel with a dramatic technological evolution that has put advanced computing tools in the hands of language documenters and those striving to reclaim and maintain endangered languages. Moreover, technology is also changing traditional user roles, blurring the lines between linguist, speaker, and activist by providing increased access to information. Digital tools have the power to greatly accelerate the language work, but the digital realm also brings new challenges for endangered languages, which sometimes struggle to thrive in a digitally-mediated world.

At ICLDC 2019, we propose to initiate a dialogue that will lead to improved connections between communities, languages, and technologies. We specifically aim to bring together three groups which have not always worked closely together: linguists, language communities, and technology developers.

Join the NFLRC Listserv

To get announcements and reminders on NFLRC news, publications, professional development events, and more, please [subscribe](#) to the official announcements email list for the National Foreign Language Resource Center at the University of Hawai‘i at Mānoa. We may occasionally post announcements of other news and events of interest to our listserv subscribers, but in general, posts will be kept to a minimum.

If you prefer social media, you could instead join our 4,000+ fans on [Facebook](#) or 900+ followers on [Twitter](#). All key announcements will be posted there as well.

Korean for Professionals, Volume 3

The Korean Language Flagship Center aims to produce professionals who can function in Korean in their chosen fields. After two years of intensive Korean language training customized to their fields, graduates of this program are expected to take their place among the next generation of global professionals as Korea specialists, commanding professional-level proficiency in Korean. Successful completion of the program and demonstration of the ability to use Korean at a professional level (ILR 3, ACTFL Superior) lead to the Master of Arts degree in Korean for Professionals. This monograph series is a compilation of the students' research on critical and controversial issues in Korea or Korea-US relations. This volume is the third in the series.

ScholarSpace

NFLRC maintains a large searchable archive of free language research and teaching materials which currently contains over 350 items. These items include foreign language teaching materials (in print, audio, and video), language acquisition research papers, and collections of conference materials.

Save the trees! Check out our other two online, open-access journals

Language Documentation & Conservation (LD&C) is a refereed, open-access journal sponsored by the NFLRC and published by [University of Hawai'i Press](#). LD&C publishes papers on all topics related to language documentation and conservation, as well as book reviews, hardware and software reviews, and notes from the field.

Reading in a Foreign Language is a refereed international journal of issues in foreign language reading and literacy, published twice yearly on the World Wide Web and sponsored by the NFLRC and the College of Languages, Linguistics, and Literature at the University of Hawai'i at Mānoa.
