Announcing the DOROTHY CHUN AWARD FOR BEST JOURNAL ARTICLE IN LANGUAGE LEARNING & TECHNOLOGY

We are very pleased to announce that LL&T has established an award for best journal article published in a volume through a generous gift from Dorothy Chun. The Dorothy Chun Award for Best Journal Article in Language Learning & Technology is administered by the University of Hawai‘i Foundation. Starting with Volume 24, a single award of $1,000 is given to one Language Learning & Technology article published in a volume. The award criteria establish that the topic of the selected article should be about innovative Computer Assisted Language Learning research that may benefit a broad scope of language learners. The article is selected by a committee appointed by the director of the Center for Language & Technology, one of the sponsors of the journal.

The inaugural 2020 award is given to Ines A. Martin, U.S. Naval Academy, for the article entitled Pronunciation development and instruction in distance language learning, published in Volume 24, Number 1. Congratulations, Dr. Martin, for this significant achievement!

New Forum on Language Teacher Education and Technology

We are happy to announce a new Forum on Language Teacher Education and Technology. This new section provides a space for teacher educators who prepare/train language teachers in pre-school to university settings to exchange their innovative technology-based pedagogical approaches in teacher education programs. This expanded forum also provides a space for language teachers to reflect on their own engagement in professional development on CALL through different kinds of informal education/training. See the 25(1) issue for the full call for papers.

7TH INTERNATIONAL CONFERENCE ON LANGUAGE DOCUMENTATION & CONSERVATION: RECOGNIZING RELATIONSHIPS

The 7th International Conference on Language Documentation & Conservation (ICLDC) will take place on March 4-7, 2021. Because of the COVID-19 pandemic, the conference will take place virtually. Regarding the conference theme, we propose to initiate a dialogue on how Recognizing Relationships can help overcome the many critical challenges in language documentation and language reclamation. We believe that this focus will lead to improved connections among academic linguists, various communities, researchers from other disciplines, educational practitioners, and many other stakeholders. We specifically aim to draw attention to the transformative power of recognizing relationships to overcome critical challenges. Please visit our website for more details and join us online. The NFLRC co-organizes this biennial event.
