

We are members of the Porteus Hall Movement, which is an organization that has been involved in political work on campus for the past three semesters. The purpose of this questionnaire is to find out from the U.E. student body what issues are of greatest concern to them and whether or not they are willing to take a stand and fightback against a collectively agreed upon common enemy. We intend to use this information in conjunction with an analysis of current and past developments on this campus and in the broader student movement to determine what is the most appropriate next step for us to take. We welcome your opinions, suggestions, and criticism in order to direct and improve our work here at University of Hawaii at Monoa.
