Two ideas

① \* Write policy paper fast -

Science  
Technology  
4-5 key  
points

developing  
country  
author

Donald Kin yane (Kenya author)

Not enough people have heard about  
it

→ [EU - India]

→ Mtg in Seoul of major economies

→ G8

Try to get it into every effort.

- IMO  
- Arctic Council  
- Post Kyoto  
- Long Range  
Transport  
LURTAF

Bilateral efforts

Policy Paper  
EU

Do it in a week

He has a good research team

Draft, for comments -

Find a place to publish it (by Sept)

Hadley Center (UK)

Martin Williams (Depa)

- are doing a conf in Sept on BC

6-19-08

We want U N E P to convene

- ① Science experts
- ② Policy

Ports

Montevideo IV ?

Or Argentina would request it -

Flesh out our strategy  
Memo to ourselves  
Timetable

How do we move it thru

Lightning fast / Not to ~~the~~ belabor them.

②-

Rundraising

- Stop gap \$ now
  - Longer process - new Plan - all money is going thru it -
- Hal Harvey, Hewlett Packard

→ Plan

Plus the metrics - credible

→ How much % BC will be reduced by 1/40  
\* Measurable metrics

6-19-08

→ Needs help on the IMO part for the grant application -

Softside - cool stove - AID \$ ?

→ Wants an outline that would be template for the rest of the grant application

What does IMO do?

What % of BC is caused by shipping?

What are they doing?

By end of next week internal draft

By end of following week - should be ok to circulate -

Funds

- I have nothing (borrowed from orone)
- I expect to get to some \$ soon -

My budget was very high -

"significant" -

6-19-08

Phase I - \$5,000 seed money -  
will be sent tomorrow -

- Quikstartile -
- Fast & good
- Writing a proposal -

Seed \$ - \$10,000 in another few weeks

Big proposal - A few hundred thousand.  
More significant -  
Me - focus on IMO -

Oslo - a guy from Clean Air Task Force  
is going to Oslo -

Dunwood ~~to go~~ was in car accident -  
broad-sided - beetle - VW - but his side -  
cracked his ribs (?)  
not sure how much was his fault
