MEMORANDUM

TO: Environmental Quality Commission
FROM: Jacquelin Miller, Acting Director
RE: Addendum to June 30, 1976 Memorandum
EIS Exemption List Proposed by the University of Hawaii
EQC Bulletin, May 23, 1976

We have consulted with other members of the University and have additional comments to add to our June 30, 1976 memorandum.

Class 4:

Item f. The same pesticide clause that other agencies are being asked to use should be utilized.

Class 5:

Who determines whether the disturbance is "serious" or "major"? A negative declaration may be better for this class.

Item e. This statement should make reference to certain federal safety standards or state safety standards which will be followed in storing and using radioactive substances.

We appreciate the opportunity to have reviewed this exemption list and hope you will find our comments useful in your consideration of the requested actions.

M. Stanzone
Jacquelin Miller
Acting Director
