Explorations is a student publication of the Southeast Asian Studies Student Association (SEASSA) in association with the Center for Southeast Asian Studies (CSEAS), published twice a year and available both online and in print.

The principle mission of *Explorations* is to offer a forum for students to present disciplinary and interdisciplinary research on a broad range of issues relating principally to the region which today constitutes Southeast Asia. Embracing a diversity of academic interests and scholastic expertise it is hoped that this forum will introduce students to the work of their colleagues, encourage discussion both within and across disciplines, and foster a sense of community among those interested in Southeast Asia. Submissions for publication may come from students at any college or university, and are not limited to the University of Hawai'i.
