

VISITORS AND TRAVELERS

Dr. A. H. BANNER (Zoology), Dr. L. R. BERGER (Microbiology) and Dr. Y. HOKAMA (Med. School) will attend a meeting during the week of June 5 in Tahiti sponsored by the South Pacific Commission. The meeting concerns research on Ciguatera (a disease associated with eating coral reef fishes). Three national groups will be involved: those mentioned above from UH, approximately five biologists and chemists from Japan and members of the Institut Recherches Medicales "Louis Malarde" of Pepeeiti.

HARLAN LEE who has been working with the Hawaii State Department of Planning and Economic Development (see PIP News X:4) will be finishing his work on the 15th of June and expects to depart for Washington D.C. by June 30. He has been working recently with MYRON B. THOMPSON (see PIP News X:7) on a program of action to develop closer ties with Pacific Islands.

UNIVERSITY OF GUAM ANTHROPOLOGY POSITION

The Department of Anthropology, University of Guam is advertising for a Ph.D. in Anthropology to fill a vacancy. The position will be filled by someone with archeological and social anthropological interests. Inquiries can be directed to the department, c/o University of Guam, Box EK, Agaña, Guam, 96910.

ARCHEOLOGICAL PROJECTS

MICRONESIAN PRESERVATION, the newsletter of the Trust Territory Historical Preservation Program, included the following announcement in the April issue:

"The Micronesian Archeological Survey is seeking qualified archeologists, architects, and/or historians to undertake the following survey and planning projects with historic preservation grants-in-aid in accordance with the Survey's policies and procedures.

1) Comprehensive survey of Kosrae, detailed study of ruins and associated middens on Lulu Island, consultation with Lelu Village concerning development of its ruins, provisions of general professional services to Kosrae Historic Preservation Committee. Ideal for a Ph.D. candidate interested in a dissertation on the development of complex political organization in the Pacific.

2) Survey and development of a plan for preservation and development of the old Japanese administrative center on Dublon Island, Truk Lagoon, in cooperation with Youth Conservation Corps program during summer, 1978.

3) Study of late 19th-early 20th century structures and sites in Kolonia, Ponape, to develop a comprehensive preservation plan. Historical archeologist with interest in community organization and training in architectural recording and structural stabilization required.

4) Detailed study of Mt. Tonnachau Historic District on Moen Island, Truk Lagoon, to define boundaries of district and fully describe its constituent sites and structures.

5) General documentary study of sites, structures, and objects created in Micronesia during World War II, to define rational methods for determining the eligibility of such properties for inclusion in the National Register of Historic Places.
