

# PACIFIC SCIENCE

A QUARTERLY DEVOTED TO THE BIOLOGICAL AND  
PHYSICAL SCIENCES OF THE PACIFIC REGION

Volume 46

April 1992

Number 2

Vegetation Ecology of the Pacific Islands  
A Symposium in Honor of F. Raymond Fosberg  
Edited by Dieter Mueller-Dombois

## CONTENTS

Preface	iii
F. Raymond Fosberg: An Appreciation <i>Dieter Mueller-Dombois</i>	107
Vegetation Ecology of Fiji: Past, Present, and Future Perspectives <i>Julian Ash</i>	111
Vegetation of Nauru and the Gilbert Islands: Case Studies of Poverty, Degradation, Disturbance, and Displacement <i>Randolph R. Thaman</i>	128
Vegetation of Samoa and Tonga <i>W. Arthur Whistler</i>	159
Origin of <i>Distylium</i> Dry Forest and Occurrence of Endangered Species in the Bonin Islands <i>Yoshikazu Shimizu</i>	179
Vegetation of the Wet Windward Slope of Haleakala, Maui, Hawaii <i>Kanehiro Kitayama and Dieter Mueller-Dombois</i>	197
Distributional Dynamics in the Hawaiian Vegetation <i>Dieter Mueller-Dombois</i>	221

(continued on following page)

## CONTENTS (*continued*)

Vegetation of the Society Islands <i>F. Raymond Fosberg</i>	232
Altitudinal Change in Plant Endemism, Species Turnover, and Diversity on Isla Santa Cruz, the Galápagos Islands <i>Syuzo Itow</i>	251
Disjunction of Tree Species in Mountain Forests, Southern North Island, New Zealand: A Review of Paleobotanical Evidence <i>D. R. McQueen</i>	269
Biogeography of the Tropical Pacific <i>D. R. Stoddart</i>	276
