

Records of Immigrant Insects for 1929 and 1930

BY THE EDITOR

In this issue of the Proceedings, the following immigrant insects are mentioned. Those marked with an asterisk were observed for the first time on the date mentioned. The others have been known before, but herein named for the first time. Pages refer to where mentioned in the text.

	PAGE
<i>Scenopinus lucidus</i> Becker (Diptera).....	335
<i>Siphunculina signata</i> Woll. (Diptera).....	335
<i>Milichia orientalis</i> Ald. (Diptera).....	336
<i>Hylemyia cilicrura</i> Rond. (Diptera).....	336
<i>Lepidosaphes uniloba</i> (Kuwana). (Homoptera).....	340
<i>Thrips panicus</i> Moul. (Thysanoptera).....	340
* <i>Litomastix floridana</i> (Ashm.). (Hymenoptera)	339, 369, 390, 419
* <i>Agromyza virens</i> Loew. (Diptera).....	343, 359, 374, 381
* <i>Anaphothrips orchidii</i> (Moul.) (Thysanoptera).....	355
<i>Idechthis canescens</i> (Grav.) (Hymenoptera).....	358
<i>Periplaneta ignota</i> Shaw. (Orthoptera).....	361
<i>Monomorium minutum</i> Mayr. (Hymenoptera).....	361
<i>Megacerus alternatus</i> Brid. (Coleoptera).....	361
* <i>Trichodectes latus</i> Nitzsch.....	361
* <i>Lophocateres pusillus</i> (Klug.) (Coleoptera).....	366
*Hibiscus bud midge (Diptera).....	370
* <i>Bruchophagus funebris</i> (How.) (Hymenoptera).....	370
<i>Phaenobremia meridionalis</i> (Felt) (Diptera).....	372
*Large psychodid (Diptera).....	378
<i>Coluocera maderae</i> Woll. (Coleoptera).....	378
* <i>Tetramorium simillimum</i> (Sm.) (Hymenoptera).....	381
* <i>Anagrus</i> sp. (Hymenoptera).....	382
* <i>Systole gemiculata</i> Forster (Hymenoptera).....	383, 390
* <i>Tetrastichus</i> sp. (Hymenoptera).....	383, 390
* <i>Volucella pusilla</i> Macq. (Diptera).....	393
* <i>Chlorion harrisi</i> Fern. (Hymenoptera).....	393
<i>Isotomodes</i> sp. (Collembola).....	394
<i>Onychiurus fimetarius</i> (L.) (Collembola).....	394
<i>Folsomia fimetaria</i> (L.) (Collembola).....	394
<i>Isotoma palustris</i> var. <i>balteata</i> Reut. (Collembola).....	394
<i>Lepidocyrtus cyaneus</i> Tull. (Collembola).....	394
<i>Hemipsocus roseus</i> Hagen (Corrodentia).....	438
<i>Leucopocella albofasciata</i> Reuter (Hemiptera).....	466
* <i>Pycnoderes 4-maculatus</i> Guerin (Hemiptera).....	466
