Politics Keeps Wrenshall From Venezuela Trip

The Adelphi Club composed of University seniors welcomes the Freshman girls on Registration Day. As the Freshman ladies were anxious about any information concerning Adelphi, the Freshman freshman had experience in expressing her thoughts. It was a social occasion for the Freshman girls, and everyone was there to show their appreciation for the Adelphi Club.

Adelphians to Welcome Fresh Ladies Today

The Adelphi Club is pleased to welcome the Fresh ladies to the University. The Adelphi Club, composed of Upperclassmen, is eager to show them around and make them feel welcome. The Fresh ladies will be taken on a tour of the campus, and they will be introduced to the various clubs and organizations on campus. The Adelphi Club is looking forward to a successful year with the Fresh ladies.
A Letter from Dean Andrews on the Paper.

I wish to congratulate the students whose initiative and enterprise have transformed last year's nebulous discussion into a reality. The University has need of a publication; its students have the ability to conduct it creditably, and our numbers are sufficient to support it. I cannot believe that a venture so important will fail.

A paper down more than give information and satisfy the curiosity of the majority, a news paper has need of a publication; its students have the ability to conduct it creditably, and our numbers are sufficient to support it. I cannot believe that a venture so important will fail.

A paper down more than give information and satisfy the curiosity of the majority, a newspaper has need of a publication; its students have the ability to conduct it creditably, and our numbers are sufficient to support it. I cannot believe that a venture so important will fail.

A paper down more than give information and satisfy the curiosity of the majority, a newspaper has need of a publication; its students have the ability to conduct it creditably, and our numbers are sufficient to support it. I cannot believe that a venture so important will fail.

The Hawaii Mirror, When and How Come.
The Reason and Purpose of this Paper Explained by an Instigator.

A fairly large group of students, convinced that our University has reached the size where a weekly newspaper is a necessity, resolved to make an earnest effort to establish one. Unfortunately, the project came up for consideration so late last term, it did not have time to get into general discussion among the students.

It seemed that to undertake a newspaper campaign at the beginning of the new term, or shortly afterwards, might lead to long discussion and delay. Other interests would crowd in, and most probably the launching of the newspaper would be postponed a whole year.

Rather than have this happen, those interested in the project decided to make themselves a self-appointed committee to get out the first edition of registration time. In this way, the project would have the benefit of the enthusiasm of the students returning to college and of the new students entering. Also, there would be no conflict of interests; the newspaper could begin functioning efficiently without a moment's delay, and would be ready to be taken over by the A.S.U.H. as soon as the A.S.U.H. felt ready to take it over.

Putting out the first edition has been so managed that there will be no loss of any of those subscribing, should the total number of subscriptions be insufficient to warrant the continuance of the paper. This means that the re-
funding of the money received. But such a contingency is unlikely, be-
cause a shadow of a doubt, the newspaper will continue to be published in a very satisfactory way. Nevertheless, it remains that the size and quality of the newspaper have already been determined directly upon the sup-
port given it by the student body. This first is a special edition for registra-
tion, but there is no reason on earth why we cannot maintain the standard reached here. This whole-hearted sup-
port of the student body is all that is needed. Obviously, making a success of the newspaper will be a great bene-
fit to each of us in keeping us in touch with regard to all University
news. Also, such a success will add greatly to our prestige and influence in the community.

Your subscription is considered a vote of approval. This first edition of the newspaper is merely an argument. It is simply the most vivid way of showing what we can do, and how much we shall enjoy a newspaper, and how much we really need it. The fact that an edition of the newspaper has been printed, does not hinder you from having the same influence that you would have had if the project had been discussed for a long time.

The expectation of those publishing out this first edition is that when the A.S.U.H. sees fit, it will assume con-
trol of the newspaper as an official or-
gan, just as it does in the case of The Paulepas. When the A.S.U.H. does assume control, it will have the right to decide what the size and name of the newspaper shall be, and who shall be the members of both the editorial and managerial staffs. In this way, the members of the student associa-
tions are not deprived of any power over the newspaper, and at the same

time there is no delay in launching this great project.

Our New Professors

The President's office has an-
ounced that the following persons will be members of our faculty during the coming term, an increase which is larger than has occurred at any previous time:

Dr. J. B. Pollock comes to us from the University of Michigan. He has been associate professor with Dr. Bergman for 1922-23, and will have the classes in botany.

The chair of Education and Psychology will be occupied by Mr. Percival Emmons, who was formerly an asse-

stant in the Institute of Educational Re-
search, Teachers' Colleges, Columbus, Ohio. Mr. Emmons has com-
pleted his work for his doctor's degree, and the degree will be conferred actual-
ly as soon as his thesis is in prin-
t.

Prof. S. C. Lee, who will teach Chin-
ese language and history, has been in
Honolulu, occupying the pulpit of the Chinese Congregational Church, since the first of the year. He has had a fine opportunity to become acquainted with the University, which opportunity he has utilized.

Miss Carrie Miller, who is a gradu-
ate of the University of California, and who has been travelling and studying in the east, is assistant pro-

fessor of Household Science.

Commerce has an instructor Mr.
R. H. Van Winkle, who received his degree in engineering at Harvard in 1920, and who has done graduate
work at Stanford. Mr. Van Winkle has brought his bride to Honolulu with him.

The English department is to be en-
larged by having for an instructor Mr. Theodore B. Hunt, formerly a resident of the state of New York.

Also, the English department is to have Miss Gladys Rentiman, who re-
ceived her Bachelor of Arts degree at Manchester College, St. Paul, Minn. Miss Rentiman has taught on the mainland for two years, and during the past year has been at the Honolulu Military Academy.

As an instructor in Chemistry, we have Miss Berroza Warner, who re-
ceived her Bachelor of Science degree from the University of Chicago in 1920. Mrs. Warner has been teaching at Hawi, Hawaii.

In addition to the long list, there are four special instructors who will spend only part of their time teaching at the University. They are: Mr. R. S. Peck, Sugar Technology; Mr. G. H. W. Burnhart, Sugar Mill Engineering; Mr. C. S. Judz and Mr. Charles J. Krausel, Forestry.

In connection with the work of the Historical Commission, Mr. R. S. Ray-
kennal will spend much of his time at the University. It is possible that he will add a little more color to history. At least he will be in Dr. Leebick's office, and will be glad to consult with students.

Tuition is Free in this University. But Education is Not Free.
The Price you pay is Diligent Work and Useful Service.

He profits most who gives of himself most.

Problems of the University

At the beginning of the term there is more importance than to pause for a moment to consider the problems before us in the coming year. If we know precisely what we are, we shall be in a much better position to solve them satisfactorily. But to say "problems," reminds us of our struggles in Math. We can almost feel the perspiration oozing out as we recollect some of the stiff problems we have had to solve in the past, and dread those that may come in the future. In the main, the matters before us as students of the University, which we call problems, are opportunities. They are opportunities to gain wider experience and to demonstrate our own ability. They are opportunities of service to our Alma Mater, to make her a more wonderful and loyal school for ourselves and all who are ever to enter her. The opportunities before us today are more numerous, larger, more significant, and call for greater ability, than at any previous time. We have a better chance than ever before.

We can use more energy and more enthusiasm than we have ever had in the past. For these reasons, we should consider carefully our opportunities, and then, with unlimited enthusiasm plunge in to make the most of them.

Perhaps the first opportunity of which we are all conscious today is our weekly newspaper. It is, we believe, a great step forward in the development of the University, and is something that will help Pomona even greater progress in the future. In order to make the newspaper the complete success it should be, every student in the University should stand behind it. He should not only subscribe, but he should stand ready to give it his time and thought. He should take a lot of pride in, and have a lot of enthusiasm for, paper. That is the way for him to get the most out of it, and for him to make everybody else appreciate what we are trying to accomplish.

The student body and of the members of the athletic squad. This is our glory of Nevada. At the University of Hawaii we stand on the athletic map, to win. We've been importing a football team. We can't keep on losing forever. We can almost feel the pressure oozing out as we recollect some of the stiff problems we have had to solve in the past, and dread those that may come in the future.
