Dr. Arthur L. Dean Becomes Research Director; Prof. David Crawford Is Chosen As President

**NEW PREXY IS ANNOUNCED BY U. H. REGENTS**

Director of Extension Work Called To Chair Left By Resignation

Prof. David L. Crawford, director of the University of Hawaii Extension department, was elected the new presiding officer of the university to succeed the retiring president, Dr. Arthur L. Dean, at a meeting of the Board of Regents on Thursday, December 23, 1921, when the resignation of President Dean was accepted and the appointment of Professor Crawford was announced. Professor Crawford has had experience both in active administrative teaching work and has won the confidence and respect of the students of this university. His choice by the board of regents, therefore, is the hearty endorsement of the student body.

During the past 10 years that Professor Crawford has been a member of the faculty of the University of Hawaii, he had the title of professor of entomology and during the past two years has devoted all of his time to his work as director of the extension department of the university.

**RESEARCH WORK IN OIL IS CONTINUED**

Work of Making Chaulmoogra Oil Derivatives Goes On At University

Research work in chaulmoogra oil derivatives which has been going on here for some years will continue in the university under the direction of Dr. Arthur L. Dean, who was appointed director of the Pineapple Research Association, when he retired as president of the university at the end of this month, in order to take up his work with the Pineapple Association. His resignation will have his executive position in the university for some months, in order to take up his work with the Pineapple association.

Graduate Study Body
With the close of the football season, basketball is the major sport of the university. Of the 80 students who made up the basketball team this year, only 22 have been members of the team in the past years. In past seasons, the team did not enjoy a successful season last year, but the men who represented the university are excited and eager for the season. The men are driven to improve their skills and are looking forward to a successful season this year. (Continued on Page 2)

**HAWAIIAN DELEGATES RETURN TUESDAY**

The men who represented the University of Hawaii at the national conference in Los Angeles, Calif., during the Christmas holidays, returned to Honolulu on Tuesday, January 11, on the S. S. Maui. The men included Honolulu men, S. R. Makaula, Los Angeles December 18, 1921, and went to Los Angeles, California, during the past two years, has devoted all of his time as director of the extension department of the university.

**INTER-CLASS DEBATE TEAMS TO BE CHOSEN AT TRY-OUTS NEXT WEEK**

Tourney for the interclass debating tournament will be held in Room 100 Honolulu hall, at 7:30 o'clock next Tuesday evening. The best 16 teams in the university is eligible to try for the championship. This year, the five men who will make up the team for the tournament will be selected from the participants in the debate tournament to be held in Room 100 Honolulu hall, at 7:30 o'clock next Tuesday evening. The best 16 teams in the university is eligible to try for the championship. The five men who will make up the team for the tournament will be selected from the participants in the debate tournament.

Dr. Dean Developed Chaulmoogra Cure
Dr. Arthur L. Dean is the discoverer of chaulmoogra oil which has been used with very satisfactory results in treating cases of leprosy. The specific was first developed by Dr. Hoffman and Miss Alice Wall, and the advanced specific was discovered and prepared by Dr. Dean. Chaulmoogra oil is obtained by pressing the seeds of the "hakukanguri ke" and several closely related species of hydrococcus, which grow wild in India. In 1920 Prof. Joseph F. Rock, who was the manager of the Hawaiian Pineapple Company, purchased the seeds of the plant and sent them to Dr. Dean for examination. (Continued on Page 2)

Wong is Nominated To Head Aggie Men
H. H. Wong, senior, was nominated as president of the Polynesian club for the second semester, a meeting of the club held Monday night on the university campus. W. L. H. and E. S. were nominated for the vice-president, and T. S. and W. S. were nominated for the secretary. For the position of treasurer, H. J. and K. H. were nominated, in addition, three candidates for the office of librarian, are J. J. and J. J. who are interested in the trip are asked to send in their nominations.

DEPUTATION TEAM TO MAKE TRIP TO KAUAI
Ten members of the University Students' Association, C. A. deputation team will leave Honolulu on January 26, for the island of Kauai where they are scheduled for a departure tour of the schools of the county.

The deputation team visited the island of Kauai in 1921 and the island is being visited again this year. The deputation team is the first team to visit the island of Kauai in recent years. The deputation team will arrive on the island on February 2, and will spend the next two weeks in the island. The trip will be under the direction of Dr. David L. Crawford, director of the deputation team, and Dwight Vaughan, Student Association, who are interested in the trip are asked to come to Maui when they return from Kauai.

**UNIVERSITY TO LOSE DEAN AS PRESIDENT**

Executive Resigns; Accepts Offer To Be Head of Pineapple Research
After 12 and a half years as service of president of the University of Hawaii, formerly the College of Hawaii, Dr. Arthur L. Dean will retire from his office to become full-time director of the Pineapple Research Association, according to an announcement made Wednesday by Mr. Sam Browne, chairman of the board of regents, on behalf of the regents.

The announcement came as an unexpected surprise to the university as well as to the community, and there has been not a single previous intimation of the event. Dr. Dean leaves his executive position on the university for some months, in order to take up his work with the Pineapple association.

BOHAI ON CHINA AND WORLD PEACE

Senator Bohai, chairman of the senate's foreign relations committee, has now been declared, but the National Council of Jewish Women has not yet been declared, but the entire address was devoted to the situation in China. A stirring picture of the dim and uncertain destinies of the American idealism that is so strongly reminiscent of the finest challenges voiced by the great Woodrow Wilson.

The Nation, editorially remarks: "It is the undiminished pessimism of Silas Strauss, American delegate to the Extra­

ordinary Assembly of the League of Nations, who has been telling his audiences that since the United States does not yet command the Western Powers and is unable to refuse to remedy the crying abuses of 1918. Former President Wilson, in his white beard, has stood in the shade of the great leaders of the war. The Nation, in silent defense of the false status quo. Will not the State De­

PARTMENT ORDER THE WARNING?"

JAPAN'S NEW LAND LAW

Under the new land law, called "the Japanese " 1926. The law does not allow any foreign nations to own land in Japan. The measure was passed by the lower house of the Diet, and will be submitted to the upper house for consideration.

The average height of the trees has been increased to 10 feet. Each tree is valued at

sullen trees, dogs howling, windows rattling. The gusts, which are regarded as being "necessary for national defense."

While the law was passed in 1925, it is still in force. The government has been very careful about the law. It is impos­sible to say how long it will be in force. The government has said that it will be in force as long as necessary.

The storm began on the evening of October 10, 1926. The winds were extremely strong, reaching 100 miles per hour in some places. The rain was heavy and continuous, with occasional gusts of wind. The storm lasted for about 12 hours, until it finally started to subside around midnight.

Dr. Dean Developed Chaumoochu Cure

(Continued From Page 1)

Dr. Dean, who is a native of Hawaii, was graduated from the University of Hawaii in the summer of 1914. He received a degree in natural sciences and went on to study medicine at the University of Rochester, New York. Dr. Dean then returned to Hawaii and practiced medicine for over 20 years before moving to the United States to continue his studies in the field of medicine.

Dr. Dean is a member of the American Medical Association and the Hawaii Medical Association. He has been a vocal advocate for public health and has worked tirelessly to improve the health of the people of Hawaii.

Dr. Dean's research has focused on the development of new treatments for a variety of diseases, including cancer. His most notable achievement was the development of the "Chaumoochu" cure, which was hailed as a breakthrough in the treatment of cancer.

Dr. Dean's work has been widely recognized, and he has received numerous awards and honors for his contributions to medicine. He is a respected figure in the medical community and has been a role model for many young doctors.

Dr. Dean has also been an active member of the community, serving on a number of boards and committees. He has been a vocal advocate for the improvement of education and has worked to ensure that all children have access to a quality education.

Dr. Dean's legacy will be remembered for his dedication to the improvement of public health and his tireless efforts to make the world a better place. He will be greatly missed by all who knew him.

Returns To Hawaii

Dr. Tasuku Harada

(Continued From Page 2)

Dr. Harada, who is a native of Hawaii, was graduated from the University of Hawaii in 1926. He then went on to study medicine at the University of Rochester, New York, and later completed his residency training at the University of California, Los Angeles.

Dr. Harada returned to Hawaii in 1930 and began practicing medicine in Honolulu. He quickly established himself as a respected figure in the medical community, and his work has been widely recognized.

Dr. Harada is a member of the American Medical Association and the Hawaii Medical Association. He has been a vocal advocate for public health and has worked tirelessly to improve the health of the people of Hawaii.

Dr. Harada's research has focused on the development of new treatments for a variety of diseases, including cancer. His most notable achievement was the development of the "Chaumoochu" cure, which was hailed as a breakthrough in the treatment of cancer.

Marguerite Louis Gives Artist Costume Dance

A "Tobehian" costume dance was held at the home of Miss Marguerite Louis, at Kahala beach, on Tuesday evening. December 30, with over 40 students and women mostly of Varsity students, present.

Miss Mary Elizabeth Cornelison, Miss Marguerite Louis, Mrs. Toran Lincoln, Peter Pan, Miss Fana cox and Charles Johnson as Fire and Adam, received prizes for the best costumes. The prices were etchings of Hawaiian scenes by Miss Louis Schwabick.

The house was decorated with exotic flowers made by Miss Mary Elizabeth Cornelison, Miss Marguerite Louis and Jack Love.

The house of the pleasure was Miss Roosevelt Louis, who is a Phi Beta Phi at the University of California, and who returned to the island for the Christmas vacation.

The hostesses, in a Japanese kimono, met her guests at the door. Following the dance, the supper was served, at midnight.
